

ACCULAB

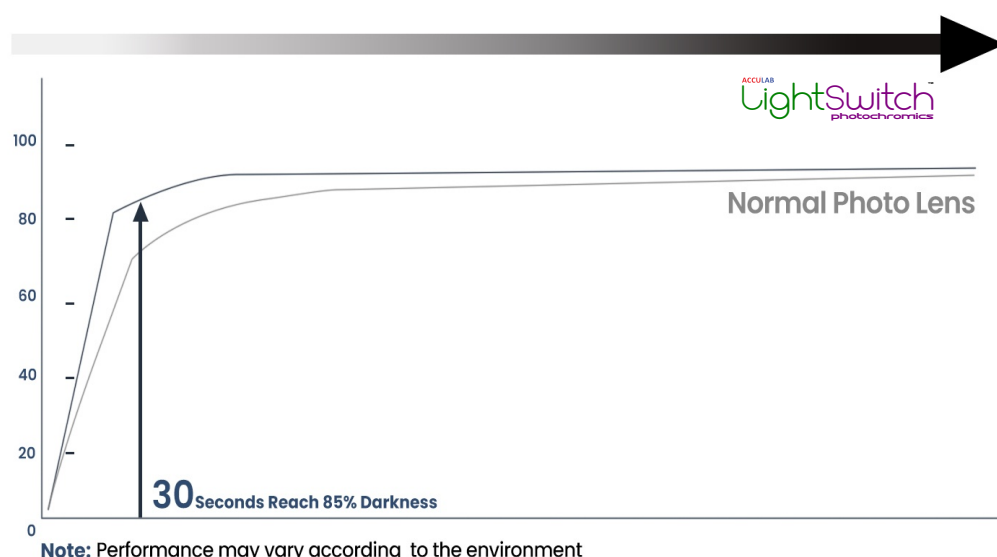

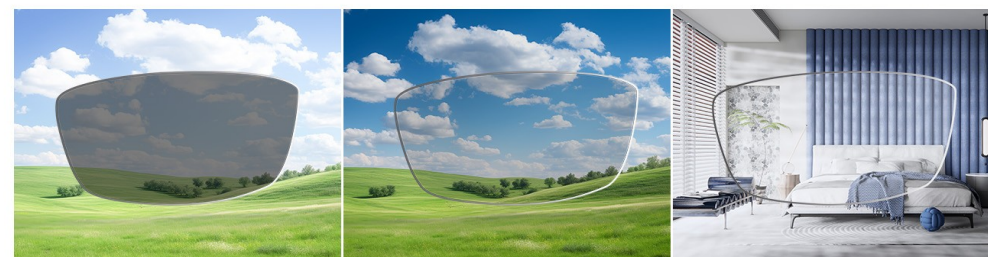

LightSwitchTM photochromics

Experience the Freedom of **LightSwitchTM** Photochromic Lenses by **AccuLab Optical**

AccuLab's **LightSwitchTM Photochromic Lenses** automatically adapt to your surroundings. Darkening outdoors and returning to clear indoors, all based on UV exposure.

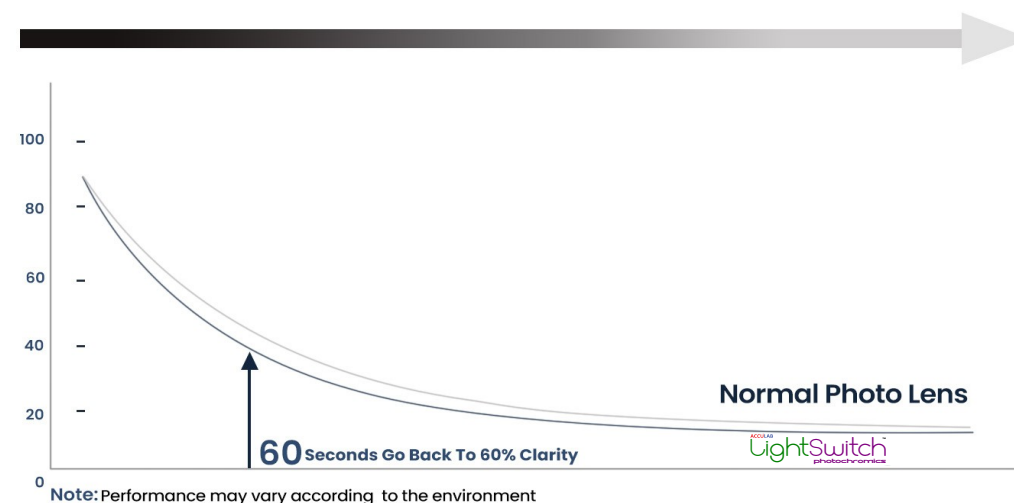

With our **next-generation technology**, Lightswitch lenses deliver:

- **Faster darkening outdoors** for instant comfort and protection
- **Quicker fading indoors** for clear, natural vision without the wait
- **Up to 85% maximum darkness** for strong sunlight protection

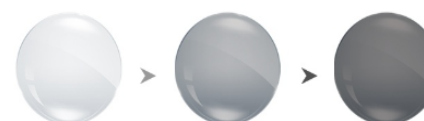

Enjoy **100% UV protection**, reduced glare, and effortless vision no matter where you are. These lenses shift seamlessly, so you can go from bright sunlight to indoor lighting without even thinking about it.

LightSwitch lenses offer more than performance; they bring **comfort, clarity, and style** to your everyday life. With a range of modern and classic color options, there's a perfect match for every look and every occasion.

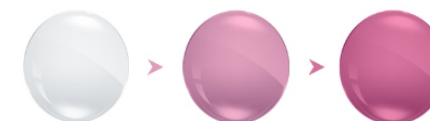

LightSwitch by AccuLab Optical - because your lenses should keep up with you, not the other way around.
