

The on-demand solution for night driving.

Introducing the Chemistrie Night Driving Clip - engineered with Quantum's revolutionary glare-control hardcoat. By filtering light between 565-595nm, these clips dramatically reduce headlight glare, sharpen color contrast, and make road signs and markings appear clearer at night. Exclusively available through Chemistrie Clips by EyeNavision.

CHEMISTRIE NIGHT DRIVING CLIP

Exclusively from Chemistrie Clips by **eyenavision** 

Sharper Nights. Safer Drives.

See the road like never before. The new Chemistrie Night Driving Clip, powered by Quantum Innovations' revolutionary glare-control hardcoat, is engineered to cut headlight glare, sharpen contrast, and enhance nighttime vision—all in a lightweight, magnetic clip that fits seamlessly over your everyday eyewear.

Why Drivers Love It

- Reduces glare from oncoming headlights and streetlights
- Filters harsh yellow light (565–595nm) to boost clarity
- Enhances color contrast — traffic signs, lane lines, and lights appear sharper
- Durable + lightweight — built with high-performance 1.50 hardcoat and anti-reflective layers
- Clips on instantly to your existing eyewear
- Safer, more comfortable driving every night

Only from Chemistrie Clips by Eyenavision

This advanced night-driving solution combines Eyenavision's patented Chemistrie magnetic system with Quantum Innovations' groundbreaking hardcoat technology—a pairing available nowhere else.
