

AccuLab offers 3 premium AR coatings: **Poseidon AR, Neptune AR, & Trident Blue Blocker AR**. All made with the same high-quality process. **Poseidon & Neptune are available in three levels based on their top coat: Classic (10 layers), Plus (20 layers), & Ultra (30 layers)** for maximum performance. **Trident always has 30 layers**. See full breakdown below.

**KEY BENEFITS OF OUR ATLANTIS SERIES AR:** **Clearer Vision** - Reduces glare & improves visual clarity in all settings.

**Better Appearance** - Eliminates reflections so others see your eyes, not glare.

**Longer-lasting Lenses** - Resists scratches, smudges, & dirt, making lenses easier to clean & more durable.

**Complete 360° UV Protection** - Dual-surface coating that blocks UV both directly & from reflecting back into your eyes.
