

Upgraded premium all-purpose lens with  
remarkable image stability for excellent vision

The **Arrow** is built for the demanding visual needs of an active lifestyle, delivering wide, crystal-clear vision and exceptional comfort **for everyday activities**. This upgraded design offers major improvements in distance vision and provides an optimized visual experience with **sharper clarity and precision at every range**. With **OMD Technology**, unwanted astigmatism is reduced by up to **40%**, ensuring outstanding visual performance, smooth power transitions between distances, and effortless adaptation.
