with Endless Office  
Occupational Lenses**

# Have you noticed you need better vision for certain activities?

With the emergence of remote work, more and more professionals spend a large part of the day using their intermediate and near vision. General progressive lenses allow you to see clearly in all distances. However, if you spend long periods of time working at a desk, you may notice your vision starts to become compromised and it takes some effort to focus.

Endless Office Occupational lenses are perfect for working at the desk. They **adjust to your needs** and offer **unmatched near and intermediate vision, an unsurpassed level of visual quality, and postural comfort.**

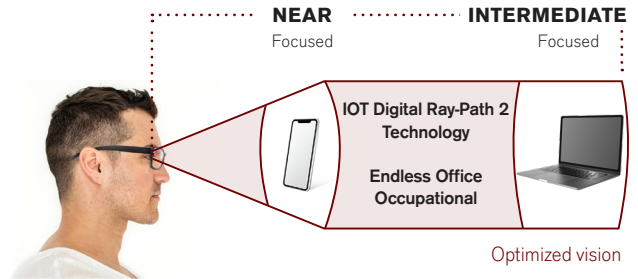

*Do not drive while wearing Endless Office Occupational lenses as they do not provide adequate distance vision.*

## Benefits

- Maximum intermediate and near visual fields
- Designed to reduce visual fatigue symptoms
- Less eyestrain
- Improved postural ergonomics avoiding unnecessary head movements
- Precise and comfortable focusing, especially when using electronic devices
- Near elimination of peripheral blur
- Superior visual quality for viewing digital devices
- Excellent dynamic vision, easy transition between near and intermediate visual fields
- Immediate adaptation

## A lens adapted to any situation

Endless Office Occupational lenses include IOT Digital Ray-Path 2 Technology. This patented innovative technology personalizes your lenses, for **crisp vision and reduced peripheral blur.**

## Always personalized

Endless Office Occupational lenses are fully personalized and compensated for 3,149 individual directions of gaze. Many **elements that are unique to you are utilized** in the creation of the design to provide **crisp, clear vision throughout the entire lens.**
